

SEO Consultant Report

SEO Opportunity Report from your Search Console CSV.

This browser-only report turns mapped CSV rows into a prioritized SEO action plan. It explains why each opportunity matters, what to do first, expected upside, and estimated effort.

Executive Summary

The shortest path to action.

The report favors actions that are specific, local to the current site, and realistic to complete without extra tools.

64	High Impression Low CTR	High	folding dog grooming table	https://examplepetgear.com/products/foldable-grooming-table
44	Position 8-20	Medium	dog grooming scissors for beginners	https://examplepetgear.com/products/grooming-scissors-kit

14-Day SEO Action Plan

What to do over the next two weeks.

This sequence turns the detected opportunities into a practical implementation plan.

Day 1-3

Optimize High Impression Low CTR

Rewrite title tags, improve meta descriptions, add benefit-driven wording, and make the snippet match search intent for high-impression keywords.

Day 4-7

Optimize Position 3-10 Low CTR

Optimize titles, improve snippet CTR, and add schema markup where relevant for keywords already ranking in visible positions.

Day 8-10**Optimize Position 8-20**

Expand content, add FAQ sections, improve internal links, and add supporting entities for keywords close to stronger page-one visibility.

Day 11-14**Handle Keyword Clustering**

Create keyword clusters, merge overlapping content, and strengthen topical authority on pages that already rank for multiple related queries.
