

SEO Opportunity Report from your Search Console CSV.

This browser-only report turns mapped CSV rows into a prioritized SEO action plan. It explains why each opportunity matters, what to do first, expected upside, and estimated effort.

EXECUTIVE SUMMARY

The shortest path to action.

The report favors actions that are specific, local to the current site, and realistic to complete without extra tools.

IMPRESSION SCORE 40/40	POSITION SCORE 30/30	CTR SCORE 18/20	BONUS SCORE 7/10
--------------------------------------	------------------------------------	-------------------------------	--------------------------------

WHY THIS MATTERS

This keyword already receives meaningful search visibility, but the CTR is below 1%. The page is being seen, yet it is not earning enough clicks from that demand.

RECOMMENDED ACTION

- Rewrite title tag
- Improve meta description
- Add benefit-driven wording
- Match search intent

EXPECTED IMPACT

CTR lift of 20%-50% on the affected query if the snippet better matches buyer intent.

BONUS SCORE7/10

WHY THIS MATTERS

This keyword already ranks in a visible position, but CTR is below 1%. That usually points to a weak title, meta description, or search result promise.

RECOMMENDED ACTION

Optimize title

Improve snippet CTR

Add schema markup

EXPECTED IMPACT

CTR lift of 20%-50% without needing to create a new page.

14-DAY SEO ACTION PLAN

What to do over the next two weeks.

This sequence turns the detected opportunities into a practical implementation plan.

DAY 1-3

Optimize High Impression Low CTR

Rewrite title tags, improve meta descriptions, add benefit-driven wording, and make the snippet match search intent for high-impression keywords.

DAY 4-7

Optimize Position 3-10 Low CTR

Optimize titles, improve snippet CTR, and add schema markup where relevant for keywords already ranking in visible positions.

DAY 8-10

Optimize Position 8-20

Expand content, add FAQ sections, improve internal links, and add supporting entities for keywords close to stronger page-one visibility.

DAY 11-14

Handle Keyword Clustering

Create keyword clusters, merge overlapping content, and strengthen topical authority on pages that already rank for multiple related queries.
